

MOONEY AIRCRAFT INC.
KERRVILLE, TEXAS

SERVICE LETTER 20-25 SERVICE BULLETIN M20-25

DATE: 5-20-57
SUBJECT: Kit-Main Fuel Gauge Selector Switch Decal
MODELS AFFECTED M-20 Serial No. 1002 thru 1138
TIME OF COMPLIANCE: Immediate action Action Recommended
ENCLOSURE: P/N 8206 Decal

The main fuel gauge selector switch is a three position switch with the extreme positions labeled - L. and R. The middle position is off and in this position the main fuel gauge reads full. This has created some confusion and it is therefore recommended that the enclosed decal be installed over and covering the present decal which reads "MAIN FUEL GAUGE".

INSTRUCTIONS:

- 1) Remove dirt from area under main fuel gauge selector switch.
- 2) Soak decal in water for about 30 seconds until tissue paper is loose and decal will slide on backing card.
- 3) Hold backing card in position under switch and slide decal from card into proper position smoothing it out with fingers.
- 4) Gently remove excess water with a blotter.
